

Today I am greeting you from my home office in my lifestyle property in Canada. I want to give you some ideas how to benefit from Club ONE, the bonus system that comes with the ASEA ONE compensation plan. There are two bonus-levels you can reach in every 4-week-cycle. With 8 points you reach Club ONE and with 15 points you reach Club ONE plus. Especially in your first 3 months with ASEA, collecting those points can earn you several hundreds of American dollars in cash bonuses and increased commission earnings. You can download a detailed guide to Club ONE in part 2 of this training page. But please do not spend hours studying the compensation plan in your first days with ASEA, to maximize your financial gain, just stick to practising what you learn in part 1 of our ASEA Success Guide. Follow this simple rule of thumb:

You can do as much or as little as you want and you are going to earn commissions for every sale you make, as long as your account is active. You keep your account active by producing a minimum of 100 volume points (called P.V., or personal volume). That is done through your own purchase which you make for personal consumption or for resale, or through purchases of your customers. 4 bottles of ASEA generate 100 points, each tube of Renu 28 generates 30 points.

Now, let us get back to your extra income you can earn with Club ONE: I suggest, if you want to make sure you take maximum advantage of the generous bonuses that ASEA offers to new Brand Partners in their first 3 months, **plan to sign up at least either 4 new brand partners every month, or 8 new customers,** or any combination of the two. If you are happy with a smaller income, you can do less, but why not aim for cashing in the hundreds of dollars of extra bonus money, in addition to the regular commissions you will earn for whatever your new customers and associates have purchased? If you can dream it, you can do it! Can you see yourself putting together a successful team of ASEA Brand Partners? Can you see yourself having a number of satisfied customers who love our products, who automatically get them delivered to their house every month, and you get a pay check every time they do?

In your virtual office, you will find this widget which shows you how much of the Club One Bonus you have already earned this month and what you can still do to increase it:

You can earn points for enrolling new Brand Partners and customers. You also get points for mentoring and for building your team: For instance, you get 4 points for enrolling a new Brand Partner, 3 points for a new customer with a subscription order, 2 points for a one-time customer and 1 point for upgrading a customer to a Brand Partner. You get points for helping them to qualify for Club ONE themselves, and for helping them to earn the Director 300 Bonus, which is an additional one time 300 dollar bonus.

If you are in your first three months with ASEA, make sure you earn your own Director 300 Bonus. Let us have a look at your own widget in your back office:

This widget shows you how much of the requirements you are currently meeting:

Within a 4 week period in your first 3 months with ASEA, you must get paid at the rank of Director 300 at least 2 times, and generate a personal group sales volume (or P.G.V.) of 1200. That is the sum of the volume of the people you have personally sponsored, and which they have sponsored, etc. including all of their customer sales volume. You already know, one case of the ASEA Redox drink represents 100 points, each tube of Renu 28 gives you 30 points, etc.

Earning your Director 300 Bonus means earning an extra 300 American dollars in addition to all your other commissions and bonuses. Watch the Compensation Plan summary video below to understand what is required to be a Director 300.

When signing up people, always make sure people benefit from an automatic monthly delivery. There are a lot of good reasons for having a monthly autoship order!

While it gives you a recurring monthly income, they get Loyalty Reward Points for each autoship delivery, 20% for new customers and 30% for long term customers! That means that with every 4th or 5th purchase they can get a free product of equal value!

Remember that after 3 months, 93% of people who consume the ASEA Redox drink notice significant results, and the benefits of Renu 28 skincare compound over the months.

Customers who choose a monthly recurring order get 10% off the retail price, and associates on 6 months of autoship do not have to pay the annual renewal fee.

People can change or cancel their monthly order in their ASEA back office, it never becomes an obligation, but as long as they maintain it, they benefit.
